WE'RE HIRING

Architectural Technologist (Placement)

Job Opportunity

An opportunity has arisen for an Architectural Technologist to join Oasis Studio to assist in the ongoing delivery of our architectural services to national & bespoke residential developers.

About Oasis Studio

Oasis Studio is multi discipline architectural design and visualisation company for the built environment. In conjunction with these services, we supply Virtual Reality and associated web based applications to a range of national clients in the UK and are expanding overseas.

Our client base base ranges from individual bespoke houses through to large scale developments throughout the UK.

Based in Eckington, Sheffield we are relocating to a new office in Chesterfield in March 2019.

Shortlisted for the FSB Employer of the Year 2019

Position

The position is best suited to a 3rd year Architectural technology placement candidate with an interest in residential architecture and visualisation. Competence in AutoCad and Revit is ideal.

REQUIRED

- Understanding of residential building design
- Strong level of knowledge of Revit and AutoCad
- Computer literate with all office software
- Good communication skills
- Excellent written and spoken English

D

- Good team working skills
- Presentation skills
- Enthusiasm
- Passion for the built environment and housing
- Previous architectural work experience

PERSONAL QUALITI

- Passionate about the Industry
- Attention to detail
- Motivated
- Driven
- Desire to succeed

QUALIFICATIONS

Qualifications in Architectural field or equivalent proven experience.

Principal duties and responsibilities:

Work roles include all aspects from sketch appraisal through to design development and planning documentation followed by detailed technical drawings. The role would also serve the visualisation services of eyesiteview.co.uk with Revit skills and workflow integration.

Passion commitment and enthusiasm are key qualities as well as an eye for detail and a creative flair.

Our clients demand high quality in short timescales so flexibility and team working is required to be able to step in at all levels to assist in completing instructions on time

Our approach to architectural services is to employ the latest software and technical resources and we continually challenge the old ways of working so that we can deliver the most inclusive client experience.

ON OFFER

We have a fantastic opportunity for an Architectural Technologist to grow skills as part of a young and expanding team. We are keen for applicants who are enthusiastic, self-motivated and with a desire to develop.

PERKS OF THE JOB

We've expanded in the last year and looking to do the same again this year but remain relatively small with 16 employees so this is the chance for you to get in on the ground floor. The right candidate has the opportunity to make a difference within a growing business with global reach potential.

We're pleased to offer our comprehensive benefits package. This includes:

- 20 - 24 days holiday per year increasing with length of service
- All Bank holidays off
- Competitive salaries
- Company bonus scheme
- Fruit and tea & coffee supplied
- Great office social club

Salary is ultimately what you are worth and following the initial starting it salary it would reviewed after 6 months + Bonus + Company Benefits

Start in March / April 2019

APPLICATION PROC

Please email through a covering letter for consideration stating your work availability, salary / rate expectations and explaining why you believe you are a strong match for this position. Give an explanation of how your skills with assist in the expansion of our Architectural and Visualisation services.

If your initial covering letter reaches the places others cant reach then we will send through an application form for completion.

We do our very best to respond to all applications. However, due to high volumes of applications we regret it is not always possible to do this. Thank you for your understanding and we wish you well in your career aspirations.

Application closing date 18th March 2019
